PROFESSIONAL EXPERIENCE

IT Support Associate - Ceylon Business Systems (Pvt) Ltd

January 2024 - Present | Colombo, Sri Lanka

- Provide first-level IT support for 120+ business users, resolving desktop, laptop, Outlook, Teams, printer, browser, and network connectivity issues within agreed response times.
- Support Microsoft 365 users by assisting with Outlook profile configuration, Teams access issues, shared mailbox requests, password reset coordination, and SharePoint file access guidance.
- Troubleshoot LAN and Wi-Fi issues using TCP/IP, DNS, DHCP, ping, traceroute, IP configuration checks, and escalation notes for infrastructure teams.
- Prepare laptops for new joiners by installing standard software, configuring email, setting up printers, applying Windows updates, and documenting handover details.
- Maintain IT asset records for laptops, monitors, printers, and accessories using Excel-based asset registers and monthly verification checks.
- Coordinate with vendors for printer faults, CCTV checks, warranty replacements, and hardware repairs while keeping users updated on progress.
- Create simple user guides for Outlook setup, password reset steps, shared drive access, and printer troubleshooting to reduce repeated support calls.

IT Support Intern - Digital Office Solutions

March 2023 - December 2023 | Colombo, Sri Lanka

- Assisted the IT team with desktop support, Windows OS installation, software troubleshooting, printer setup, antivirus checks, and hardware diagnostics.
- Supported basic Active Directory activities by preparing user creation requests, account disablement requests, and access change documentation for senior IT staff.
- Monitored helpdesk requests and updated ticket notes with issue descriptions, troubleshooting steps, root cause details, and resolution summaries.
- Helped business users with ERP login issues, report access problems, browser compatibility issues, and data-entry support during system usage.

PROJECTS & PRACTICAL EXPERIENCE

New Joiner IT Onboarding Checklist

- Created a standardized onboarding checklist covering laptop preparation, Microsoft 365 setup, printer mapping, user access verification, asset assignment, and handover acknowledgement.

Branch Printer and Network Issue Reduction

- Documented recurring printer and connectivity problems, identified frequent causes, and prepared quick-fix instructions for users and branch coordinators.

Basic IT Support Knowledge Base

- Prepared internal documentation for Outlook troubleshooting, VPN access checks, browser cache issues, shared folder access, and escalation rules.

EDUCATION

Bachelor of Science in Information Technology - Degree in IT, Computer Science related field
