

# SAMPLE CV 02 - Software Developer Candidate

Kavindu Fernando

Email: kavindu.fernando@email.com | Phone: +94 76 234 5678 | Location: Gampaha, Sri Lanka

## Professional Summary

Junior Software Developer with experience in React, PHP, Laravel, REST APIs, MySQL, Git, and frontend development. Developed web applications for recruitment, inventory, and transport management. Also has part-time office administration experience involving document handling and communication.

## Work Experience

### Junior Software Developer

*TechLabs Solutions - Colombo | March 2024 - Present*

- Developed frontend components using React and JavaScript.
- Built backend APIs using Laravel and PHP.
- Integrated MySQL databases with web applications.
- Used GitHub for version control and team collaboration.
- Created reusable UI components for dashboard pages.
- Tested and debugged application issues.
- Worked with REST API requests using Axios.

## Projects

### Recruitment Management System

*Academic / Portfolio Project*

- Developed applicant registration and job application pages using React.
- Created backend API endpoints using PHP.
- Stored candidate and job data in MySQL.
- Implemented form validation for applicant details.
- Used GitHub for code management.

### Bus Tracking Application

*Final Year Research Project*

- Designed mobile-friendly tracking UI.
- Developed location update features.
- Used database tables to manage bus, route, and user information.

## Part-time Experience

### Office Assistant

*City Business Services - Gampaha | January 2022 - August 2022*

- Maintained office documents and basic records.
- Assisted with customer communication.
- Scheduled meetings and updated simple Excel sheets.
