SUMMARY

Motivated BSc (Hons) Software Engineering undergraduate with hands-on experience from a software developer internship at George Steuart & Company Pvt. Ltd. Skilled in web and mobile application development, responsive UI/UX design, RESTful API integration, and software testing. Proficient in JavaScript, React, Next.js, Node.js, Flutter, PHP, and MySQL, with solid knowledge of modern software development practices. A collaborative team player with strong problem-solving, analytical, and communication skills, passionate about delivering reliable, scalable, and user-centered digital solutions while continuously exploring emerging technologies.

EXPERIENCE

Software Developer Intern

George Steuart & Company Pvt. Ltd. – Colombo 03, Sri Lanka | September 2025 – March 2026

- Developed an AI-powered internal chatbot using LLaMA and Ollama to improve employee support.
- Built a full-stack job portal application using React, PHP, and MySQL to streamline recruitment through automated job postings, application tracking, and candidate management.
- Designed responsive UI components for optimal user experience across devices.
- Developed and integrated RESTful APIs for communication between frontend and backend services.
- Collaborated with cross-functional teams in an Agile environment to deliver scalable and maintainable software solutions.
- Identified and resolved frontend and backend issues, enhancing system performance, stability, and user experience.
- Utilized Git and GitHub for version control, collaborative development, and code management.

EDUCATION

- | | |
|---|---------------------|
| • B.Sc. (Hons) in Software Engineering | 2022-Present |
| CINEC Campus (Pvt) Ltd - Malabe | |
| • Advanced Level Examination - Biological Science Stream | 2011-2020 |
| Sanghamitta Balika Vidyalaya – Galle | |

TECHNICAL SKILLS

- **Programming:** Java, JavaScript, PHP, SQL, HTML, CSS, Python
- **Web Development:** **Frontend:** HTML, CSS, JavaScript, React, Next.js, Flutter
Backend: PHP, Node.js, MySQL, Firebase
Full-Stack Development: RESTful API Integration, End-to-End Web Solutions
- **Mobile Development:** Android (Java, Flutter, Android Studio)
- **Artificial Intelligence & AI Development:** Large Language Models (LLMs), AI Chatbot Development
- **Frameworks & Libraries:** Bootstrap, React, Flutter, Next.js
- **Databases:** MySQL, Firebase
- **UI/UX Design:** Figma, Canva, Wireframing, Prototyping
- **Software Testing:** Manual Testing, Selenium WebDriver (Java), JMeter, Performance Testing, Test Case Design
- **Tools & Platforms:** Git, GitHub, VS Code, Android Studio, XAMPP, phpMyAdmin, Eclipse IDE, Apache NetBeans IDE, Postman
- **No-Code / Low-Code Tools:** Bubble.io

PROJECTS

- **Acciguard – IoT-Based Intelligent Vehicle Accident Detection and Emergency Alert System (Ongoing)**
 - Developing an IoT-based accident detection system using accelerometer, vibration, and gyroscope sensors.
 - Implementing accident severity classification to distinguish between major and minor collisions.
 - Integrating GPS and mobile application alerts for real-time emergency notifications.
 - Technologies: **ESP32, IoT Sensors, GPS Module, GSM Module, Embedded C, Mobile App Integration**

- **After-Sales Service Mobile & Web Application – George Stuart Consumer (PVT) LTD**
 - Developed an integrated mobile and web solution to improve sales executive workflow and customer complaint management.
 - Implemented QR code scanning to provide chemical usage guidelines.
 - Technologies Used: **Flutter, Dart, Firebase, Node.js, Figma**
- **"Sha Luxury" Hotel Web Application**
 - Designed and developed an interactive, user-friendly hotel website with seamless booking functionality.
 - Technologies Used: **HTML, CSS, JavaScript, PHP**
- **Hospital Patient Management System**
 - Built a comprehensive system to manage patient records, appointments, and medical histories, enhancing operational efficiency.
 - Technologies Used: **Java, MYSQL**
- **Tuition Class Management System (Mobile App)**
 - Built a mobile application to manage student enrollment, attendance tracking, and payment processing.
 - Enabled login for student, teacher, and admin roles.
 - Technologies Used: **Flutter, Dart, Firebase, Figma**
- **Online Bookshop System with API Integration**
 - Designed and developed a JSON-based web application for an online bookshop featuring user authentication and API integration.
 - Implemented user registration, login, and session management using JWT and password encryption.
 - Integrated external book APIs to fetch and display book data with search, filter, and sorting capabilities.
 - Developed a shopping cart and checkout system with order confirmation.
 - Technologies Used: **React.js, Node.js, MongoDB, RESTful APIs, JWT, HTML5, CSS3, JavaScript**

PUBLICATIONS

- **Enhancing the Online Dress Shopping Experience through AI Based Solutions**
4th Cinec International Research Symposium
- **Enhancing Human-Computer Interaction with Deep Learning - Based Emotion Recognition System**
5th Cinec International Research Symposium
- **Optimizing Emergency Response: AI Solutions for Faster Ambulance Dispatch and Hospital Readiness**

CERTIFICATIONS

- Python for Beginners in University of Moratuwa
- Web Design for Beginners in University of Moratuwa
- Introduction to Android Studio Course in Simplilearn
- UI/UX for Beginners in Great Learning
- ReactJS for Beginners in Simplilearn

SOFT SKILLS

- Problem-Solving
- Communication Skills
- Time Management
- Leadership
- Critical Thinking
- Teamwork
